WHAT YOU CAN RELY ON

Is one as good as another, or is there such a thing as one-of-a-kind? The mark that shows the difference. With the certification process and the „DIN*plus*" quality mark for wood pellets, you can continue to rely on high-quality wood pellets.

DIN CERTCO

- one of the few accredited certification bodies for wood pellets in Europe,
- a leader in quality standards that are also included in the European and International standards,
- trustworthy partner of the pellet industry for many years.

OF THIS YOU CAN BE CERTAIN

DIN*plus* enables manufacturers to demonstrate the quality of their product and set an example for high-quality wood pellets – based on the International standard DIN EN ISO 17225-2.

WE WILL PROVIDE TESTING FOR YOU

The testing and certification of wood pellets includes testing and assurance of high-quality features of the pellets during manufacturing. Product testing includes, for instance, tests of characteristics such as water content, ash content and fine proportion.

WE WILL PROVIDE MONITORING FOR YOU

Would you like to be able to rely on consistently high quality? So would we. That is why we conduct annual monitoring of the manufacturing facility in addition to the product test.

OUR MARK FOR YOU

You can see it at a glance, because our DIN*plus* quality mark says more than 1,000 words – in every language.

The pellets were successfully
- tested,
- evaluated,
- certified,
- monitored.

A LEADER IN THE WOOD PELLET INDUSTRY

DIN CERTCO is the certification company of TÜV Rheinland and founded by DIN Deutsches Institut für Normung e.V. and is highly regarded both within the country and abroad, due to its independence, neutrality, competence and years of experience.

DID YOU KNOW

An up-to-date list of all DIN CERTCO certificate holders can be viewed at www.dincertco.de?
