2.	Technical documentation	3
3.	Factory production control	3

1. Abbreviations

The definitions in the Solar Keymark Scheme Rules apply

2. Technical documentation

The application file has to include the technical documentation defined in paragraph 6 "Documentation and labelling" of the EN 12975:2022.

If a family of products is certified, the documents have to cover all members of the family. In case of special product designs the delivery of additional documents might be required. All documents are kept strictly confidential by the inspector / test institute.

It is in the responsibility of the inspector / test laboratory that the documents are supplied in a language that is understood by the inspector / testing laboratory.

3. Factory production control

The inspector has to confirm that the technical information is in conformity with the requirements of the standard and that this documentation is describing the certified product(s) in an adequate way.
