

Check list – Certification of barbecue charcoal and barbecue charcoal briquettes

On the packaging of impregnated and unimpregnated barbecue charcoal and barbecue charcoal briquettes, the following information must be marked legible, permanent and at least in the language (s) of the country where the equipment is sold:

Obligatory information

- | | |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
| 1) Name or registered company trademark of the manufacturer or dealer / distributor | |
| 2) Designation as barbecue charcoal or barbecue charcoal briquettes | |
| 3) Type designation, if applicable | |
| 4) Content, meaning 4 x 1 kg, 1 x 1.4 kg, 2 x LT etc. (for impregnated barbecue charcoal and briquettes) and content in kg (for non-impregnated barbecue charcoal and briquettes and loose impregnated barbecue charcoal and briquettes in bags) | |
| 5) Number of the standard DIN EN 1860-2 | |
| 6) Safety and health related instructions for safe and proper usage | |
| 7) Warning: „Attention! Do not use easily flammable liquids, e.g. spirits or gasoline, to ignite or re-ignite!“
(for unimpregnated charcoal) | |
| 8) Warning: „Caution! After igniting the grill, do not add any other impregnated fuels to the grill“. Should be taken literally.
(for impregnated charcoal) | |
| 9) Specification of the year of manufacture | |
| 10) Certification mark „DIN-Geprüft“* or „DINplus“* and registration number of DIN CERTCO after certification | |
| 11) Production facility (distinguishing feature of multiple facilities: this can be one number or many letters). | |

* The marks may only be used in their original form and may only be proportionally resized. Deviating from the color scheme of the template provided by DIN CERTCO, the mark may be displayed in a single color.
